Database Monitoring & Remote DBA Services

- Trusted by Businesses and Public Safety Agencies Nationwide -

Is Your Critical Data Protected?  
Do You Have a SQL Server but No On-Site DBA?  
What Would You Do if You Lost Your Server's  
Data Tomorrow?

Business Owners and Public Safety Agencies:

Without proper monitoring and routine maintenance, you run the risk of losing data...or worse...your entire database. G Force Data is THE trusted resource to businesses and public safety agencies nationwide - ensuring your data is secure, properly backed-up, available and recoverable.

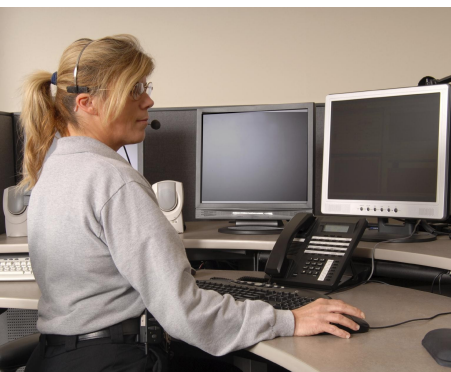

Our **24/7 SQL Server Monitoring** service protects your vital data from potential disaster.

**Gain piece of mind** knowing your databases are safe, backed-up and recoverable - 24/7. Our secure SQL Monitor immediately alerts our expert DBAs to issues affecting your databases. G Force Data responds, then resolves your problems...usually before you know they exist!

#### FREE ISSUE RESOLUTION

SQL Monitoring customers enjoy free remote-resolution of most failures and issues impacting their databases (those that require simple fixes), including failed backups, low disc space and failed jobs.

SQL Server Monitoring  
only \$250/month
